Intolerable.  
The butt ends of buggy whips should be broken over the heads of a lot of negro boys who run along funeral processions and annoy those in vehicles by asking to hold the horse. This is a nuisance that the people ought to take a hand in stopping.

The Boone Club.  
The Boone Club, an organization formed many years ago by Lancaster citizens, encamped at the cold spring on Dix river Sunday and Monday. This club meets every Fourth of July. This club was organized some one hundred and twenty years ago by Maj. J. Crafty Barnside as president.

Colored Teachers Institute.  
The Colored Teachers Institute for Garrard county, for the current school year, will be held at the Court House in Lancaster, beginning Monday, August 1st, and continue five days. Instructor John H. Jackson. ELISA J. Lusk, Supt.

Strayed or Stolen.  
About May 13, from my place 3 miles from Lancaster on New Danville pike, one red heifer, (with black stripes) half alderney, about year and a half old. Any information thankfully received. Mrs. Mary A. Sutton, Lancaster, Ky.

Deserved Promotion.  
THE RECORD is glad to see that its good friend, Robert E. Hughes, has been promoted to the high position of city editor on the Louisville Commercial. Having withstood the battle of running a country weekly here in Lancaster he, of course, can hold down any job anywhere. The publication of the New York Herald is nothing compared to the ups and downs of a country office. Having "done time" in this harness we are glad Rob has succeeded in reaching a place where he has only one line of work to look after and gets living pay. Success, old man.

The Wheat.  
The reports on the wheat crop are not very satisfactory. The threshing last week indicates a much less yield than anticipated. Some fields have threshed out 20 to 25 bushels per acre. The berry is small and unfortunately more or less smut appears which damages wheat very materially and especially if in the grain. From what we can learn the market is unsettled and probably will start at 60 to 65c. We understand several sales have been made at these figures. Some four or five cars shipped last week and should the weather be favorable for threshing this week there will be several thousand bushels shipped.

A Bad Gang.  
Through the vigilance of officers in Garrard and surrounding counties, the breaking up of the notorious Gill and Story gang has about been accomplished. For several years the residents along Sugar Creek and vicinity have been greatly annoyed by thieves. Meat, chickens, hogs, harness and, in fact anything left from under lock and key was not safe in the neighborhood. Officers from Madison have landed in the Richmond jail George Story, Jim and Bill Gill, all white men living in the above mentioned neighborhood. One of these men gave the whole thing away and told of their many depredations. Story's wife had Gill's wife arrested and she in turn had the Story woman landed behind the bars. Toll Gill has also had the chain of evidence wound around him and now ornaments a cell in the Garrard jail. The case against the latter will be called before Judge Burnside this, Friday, morning. We understand much stolen property has been located and the chances for a conviction of the entire layout are good.

Wheat harvest is well nigh over.  
Buy ice from Northcott and it will be delivered daily.

No Sunday mail yet. It seems that foggyism is to predominate.

25 to 50 per cent saved on the dollar means a good deal to you at the Blue Grass Grocery.

Call and pay your account. I have indulged you. You must accommodate me. T. CUNIFF.

White Teachers Institute.  
The White Teachers Institute for Garrard county for the current year, will be held at the Court House in Lancaster, beginning Monday, August 1st, and continue five days. Institute instructor, Prof. W. E. Lumsley. ELISA J. Lusk, Supt.

School at Sycamore.  
Prof. Ben Evans has been given a school at Sycamore Valley. Prof. Evans is one of the best teachers in the county. To start with, Ben has just about as much sense as is crowded into any cranium, and this with his long experience, makes him a typical peach tree winder.

Baughman.  
Mrs. Mary A. Baughman, widow of Samuel O. Baughman, died on the 30th at her home in Boyle, of paralysis. The funeral was preached at Providence church next afternoon at 2 o'clock, by Rev. J. W. Lynch; burial in Bellevue Cemetery. The deceased was 67 years old, a daughter of Ephraim Smith, of Boyle county, who moved to Missouri, where most of the family now live. The following children survive Mrs. Baughman: James H. Baughman, Boyle county; Mrs. Jennie Smith, Paris, Mo.; Mrs. J. L. Bruce, Mrs. G. K. Pope, W. E. Baughman, T. L. Baughman, Miss Jennie Baughman, Mrs. J. M. Sallee, John and Homer Baughman. She was a devoted follower of the Master, a good wife and mother and splendid neighbor.—A. Advocate.

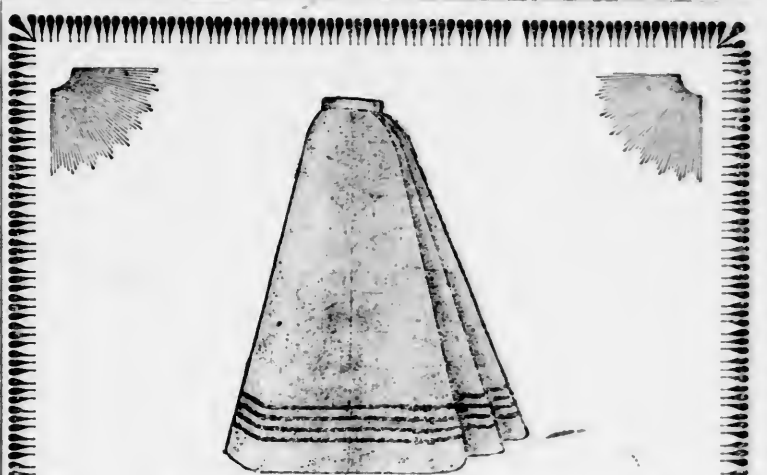

Soldiers Here.  
Serg't. Will Walker, Ned Burdett and Kirk Kerby came up from Chickamauga Tuesday. Walker and Burdett are on a few days furlough, and Kerby will remain. The latter had charge of several teams, and, as the company has been recruited to its full strength, (100) his services were no longer needed. Burdett is regimental blacksmith, a position which is quite responsible, but which puts many of Uncle Sam's dollars in Ned's pocket. Will Walker was made third sergeant. His appointment was a good one, as Will is as straight as a die and as clever a fellow as one ever meets with. They say the boys are getting along nicely, and are as happy as larks. They do not know when they will be ordered from the present camping ground, nor do they have any idea where they will be sent. Burdett and Walker will return to Chickamauga in a few days.

Death of Mrs. Herndon.  
After months of untold suffering from a complication of throat and lung diseases, Mrs. Helen K. Herndon, wife of Capt. William Herndon, died in this city Sunday morning at 8 o'clock. Mrs. Herndon had been in bad health for many years and for several months was bedfast. She was the oldest daughter of Mr. and Mrs. Wm. H. Kinnaird. The life of Mrs. Herndon was surely a pure one. She was a zealous christian and the most loving and devoted mother we ever knew. She had such deep love for her family that when she was suffering the greatest pain she asked them to remain out of sight, that they may not suffer by seeing her suffer. A short time before her death she called each of her children in and admonished them to put their trust in God, live a Christ-like life and they would surely meet her in a place where they would be forever united. Mrs. Herndon was a member of the Presbyterian church and was brought up to study the bible and practice its teachings. The early training given by her pious mother never left her, and she went through life a God-loving and God-fearing christian. The husband and children have the sympathy of all the community in their great bereavement. They should remember that their loss is the teachings of the bible, now where no suffering is known and where she will peacefully await the sounding of the trumpet which will usher in the glad resurrection morn.

### REPORTED KILLED.

Several Papers Say Capt. W. C. McFarland was Killed at Santiago.

A report of the battle at San Juan Hill, one of the strongest of the Americans encountered, say Captain W. C. McFarland was killed in the battle. He is a brother-in-law of the editor of this paper and has many warm friends here. Other reports, published in the Enquirer, Courier-Journal and larger papers, say he is only wounded in the leg. The latter report is accepted as the correct one, as the battle took place last Saturday and all the regimental officers being acquainted with Capt. McFarland's family, and knowing their address, would certainly have informed them had he been killed. Capt. McFarland is a very large man and a shot from a rifle striking the bone of his leg would certainly cause him to fall. As the company was making a mad rush to the front, the supposition is they ran over their leader, thinking him dead. The telegram says:

"The charge was the greatest of the day, and the most important, for the hill was the chief defense overlooking Santiago. General Hawkins called upon our men to charge. The Spanish are seemed irresistible, but the men did not flinch. With yells they charged up the hill. The merciless shells tore gaps in their ranks, but on they went, inspired by General Hawkins and other officers. Company E, of the Sixteenth Infantry, was in front. Captain McFarland was killed in the first moments of the rush. His company wavered a moment, and then Lieutenant Carey jumped into the lead, and yelled 'Come on company E!' The company dashed on, but a few minutes later Lieutenant Carey was killed. None of the men seemed to realize the terrific deadly fire that was being poured into their faces. On they went like demons."

His wife and son, who are in New York, have heard nothing whatever from Capt. McFarland. The belief of the family is that he was wounded and fell, his company in the great excitement and rush going on over him. A cable has been sent to Cuba, but at this hour no answer has been received.

LATER. Just as we go to press, a telegram reports McFarland alive.

## FOR CONGRESS.

McCREARY.—We are authorized to announce Hon. James P. McCreary, of Madison county, a candidate for Congress in the 8th Congressional District, subject to the action of the Democratic party.

THOMPSON.—We announce J. B. Thompson a candidate for re-nomination by the Democratic party for Representative in Congress from this 8th district.

It was believed that the war with Spain would wipe out, to a great extent, the feeling between the North and South. It certainly has a tendency to do so, but the old flame will continue to be kindled as long as organizations are formed and kept up by those who took part in that war. An ill feeling will never die out as long as it is talked about, and these organizations only bring up recollections of Uncle Sam's family quarrel. We received a letter, enclosing a lot of blanks, asking us to join the "Sons of Veterans." Our father enjoyed a military record of which anyone would be proud, but excuse us on joining the aforesaid organization. If they would organize a society called the "Sons of Mexican Veterans," then we would work like a beaver for its advancement. The majority of those taking part in army societies these days were never near enough a battle to smell the smoke and they way they blow off and saw the air gives us an excruciating pain under our old office apron.

In speaking of the various reports blaming Gov. Bradley for the delay in getting the Kentucky troops to the front and for their insufficient equipment, Maj. John Green Ballance, the mustering officer, exonerates the Governor from all blame for this. He attributes the responsibility to the inability of the Government to supply the necessary equipment. He says the people do not understand the enormity of equipping the volunteer army. If everyone connected with the organization and equipment of the Kentucky boys had worked as faithfully as did Gov. Bradley, the troops would have been ready much sooner.

The army and navy is at last openly spitting at each other. There has always been great jealousy between the two arms, the army, up to the last few months, being the upper dog. Since this war began and the navy has had opportunity to show its great efficiency, the army leaders have felt that their laurels were in danger, consequently have taken greater chances than they would otherwise have done. As the whole world is made up of vanity, we suppose there is excuse for Uncle Sam's boys having their share of it.

EVERYBODY who isn't there and does not know the circumstances, can tell how Santiago should be taken. To a man up a tree it looks like Sampson is right in wanting Morro out of the way before entering the harbor. The castle is many feet above the harbor, and, as the decks of his ships are unprotected, it would be suicidal to attempt an entrance. Old "Samp" knows his business.

It is all well enough to close the postoffices and banks on the Fourth of July and Christmas, but we fail to see the propriety of shutting up on the other seventy-five or one hundred closing days now in vogue. Some lumber-headed congressman may doubtless recommend ground-hog and wash-days as appropriate closing times. There would be just about as much propriety in the latter as there is in some now observed.

The determined manner in which the American soldiers walked over the Spaniard's breastworks, tore down their strong barbed-wire fences and waded into double their number is enough to open the eyes of the entire world. Our men had all odds against them, but never stopped for one moment to consider danger. Many of the boys in blue fell, but they died nobly and their memory will always be cherished.

It is perfectly evident that Shafter was too hasty in attacking Santiago. In his mad desire to win fame he opened fire on the Spanish entrenchments before his artillery arrived, and in one place before the attacking column was completely formed. We very much fear this gentleman is too much inclined to place his men in jeopardy in order to advance his own personal reputation. "Vanity of vanities, saith the Preacher; all is vanity."

Gov. BRADLEY has come out in a letter which peels the bark off Col. Castleman. These gentlemen are wounding one-another over State Guard matters and if their newspaper battle continues much longer pistols and coffee will no doubt be used.

Mr. H. E. WOOLFOLK, the gentlemanly editor of the Danville Advocate, was elected president of the Kentucky Press Association for the ensuing year, a compliment well merited.

Bob Moore, of LaFayette, Ind., says that for constipation he has found DeWitt's Little Early Risers to be perfect. They never gripe. Try them for stomach and liver troubles. Storms Drug Store.

# The War.

The past week has been full of stirring incidents in the great war. The American soldiers, as we stated in last issue, have continued their steady march against Santiago. As the enemy was well entrenched and had the way blocked by innumerable barbed-wire fences, the progress of our troops has been slow. The fighting of the Americans has been extremely bitter and shows conclusively that they are the bravest men on earth. They rushed into a perfect hell of fire at each breastwork and, although many were killed and wounded, they put the Spanish to flight and captured their positions. The Spanish loss is simply fearful. The Dons fought under cover all the time and never exposed themselves only when retreating. The coolness and good marksmanship of our men has been remarkable. Soldiers were never required to fight under greater difficulties than have our men. The Spaniards have used the explosive and also the poisoned bullets, which shows what contemptible devils they are. It must be said, however, that they have displayed great staying qualities.

The fighting began in earnest Friday. Our men stormed their breastworks all along the line. As there were many lines of these fortifications, the Dons were driven back from one to another until they were completely shut up in the city of Santiago. Up to this hour no regular assault has been made upon the city, but it is hourly expected.

The much-talked-of fleet of Cervera, which has been bottled up in Santiago harbor for several weeks, made an attempt to run the blockade of Sampson's fleet Sunday morning. What the American's did to those Spanish boats will make history which will raise an American's hair a thousand years hence. Just listen to this following account of it: "It was about nine o'clock Sunday morning when the flagship Infanta Maria Teresa passed under the wall of Morro Castle and steamed out to sea. She was followed by the Cristobal Colon, Viscaya and Oquendo and last by the torpedo-boat destroyers Furor and Pluton. The American vessels, lying ten miles off the entrance to the harbor, sighted them immediately. The American cruisers had no thought of anything as the Spanish fleet getting past the sunken collier Merrimac, which they had been deluded into believing effectually blocked the exit. The signal for full speed ahead was running from bridge to engine room of every ship, and the entire American fleet commenced to move in shore toward the Spanish and the great twelve and thirteen-inch guns of the battleships and the smaller batteries on the other vessels fired shot after shot at long range. As the ships ran in toward the shore it soon became evident that the Spaniards had not come out to make an aggressive fight, for they turned to the eastward as soon as they had cleared the harbor and started on their race for safety, at the same time sending answering shots at the American ships as fast as the men could load and fire the guns. The Brooklyn, Massachusetts, Texas, Oregon and Iowa were nearer the Spaniards than any others of the American vessels, but still most of them were too far away to get an effective range. They crowded on all steam, however, in preparation for the chase, never stopping their fire for one moment. For an hour or two they followed the flying Spaniards westward along the shore line, sending shot after shot into their blazing hulls, tearing great holes in their steel sides and covering their decks with the blood of the killed and the wounded. At no time did the Spaniards show any indication that they intended to do otherwise than fight to the last. They showed no signals to surrender even when their ships commenced to sink and the great clouds of smoke pouring from their sides showed they were on fire. They turned the heads of their ships toward the shore, less than a mile away and ran them on the beach and rocks, where their destruction was soon completed. The officers and men on board then escaped to the shores as well as they could, with the assistance of boats sent from the American men-of-war, and then threw themselves upon the mercy of their captors. The Americans not only extended to them the gracious hand of chivalry, but sent a guard to protect them from the murderous hands of Cuban soldiers hiding in the bush on the hillside eager to rush down and attack the unarmed, defeated, but valorous foe."

During the entire fight none of the American ships were injured. The one killed was Chief Yeoman Ellis, of the Brooklyn. Only ten of our men were injured.

Out of the 243 men examined for the Fourth regiment, only 25 have been rejected. Quite a good showing for the mountain boys.

Secretary Alger will send to Congress a recommendation that legislative authority be given to the President to enlist 25,000 negro soldiers for the volunteer army in the event he deems it necessary to increase the present fighting force.

The American troops, 2,500 in number, on three transports, conveyed by the Charleston, arrived at Manila June 30 and began disembarking at Cavite the next day. They brought to Cavite as a prisoner the Spanish Governor of the Ladrone Islands. A garrison was left at Ladrone Islands.

An order reached Gen. Brooke at Chickamauga Sunday to designate about 20,000 men for immediate departure to the South. It is believed he has selected the First division of the First corps and two brigades of the Second division. These include the First and Third Kentucky regiments.

When the news of the disaster to the Spanish fleet reached the soldiers surrounding Santiago, which was during the truest, the regimental band that had managed to keep its instruments on the line, played "The Star Spangled Banner" and "There'll Be a Hot Time in the Old Town Tonight." The men cheered from one end of the line to the other.

E. C. Blanks, of Louisville, Texas, writes that his box of DeWitt's Witch Hazel Salve was worth \$3,000 to him. It cured his piles of ten years standing. He advises others to try it. It also cures eczema, skin diseases and obstinate sores. Storms Drug Store.

The Wolf News Bureau has issued an official denial of the statement that Germany, France Russia have reached an understanding relative to the Philippine island and that an international congress will be held when the Spanish-American war is over, similar to the Berlin congress of 1878, so far Germany is concerned.

The statement thus denied was published in the Frankfurter Zeitung.

In speaking of the war, Sam Jones, the great evangelist, says: "I think if the negotiations had been handled with proper religious spirit, war would have been avoided. Now that we are in it, however, we should lick Spain out of her boots. If we do it we will save us licking her again, and maybe, some other nations. It will not do to stop until Spain gives up all her possessions and agrees to be decent like other nations."

Win your battles against disease by acting promptly. One Minute Cough Cure produces immediate results. When taken early it prevents consumption. And in later stages it furnishes prompt relief. Storms Drug Store.

The 4th Kentucky staff officers are Col. David G. Colson, Lieutenant Colonel, David R. Murray, Majors, Sam'l. Morrow, W. H. Collier, Surgeon Major H. G. Kenyon, Assistant Surgeons, Ben L. Brewer and John C. Lewis, Quartermaster, Geo. W. Albright, Chaplain, John Stamper, Charles Baldick, Regimental Adjutant, James Carroll, Sergeant Major, and P. C. Brashear, Quartermaster Sergeant.

The Chesapeake and Ohio tendered to the war department the fleet of five steamers owned by that company; plying between Newport News and Europe, at the actual cost of the vessels, with provisions for restoring them to the company when the department has no further need of them, at a figure that would be eminently reasonable. There are seven of these ships. They are of steel and of about 8,000 tons gross burden.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by R. E. McRoberts.

A Chickamauga dispatch to the Enquirer says: It is believed that the Second Kentucky will get orders to move along with the First Corps. This morning an order came from Gen. Wade to Inspector Gen. David Vickers to inspect the regiment in detail. The regiment was at drill. It was called in and the men put in heavy marching order. Maj. Vickers with Col. Galtier examined every man and his outfit minutely, and at the conclusion the Inspector turned to Col. Galtier, saying: "Galtier, you have as fine a regiment as there is in Camp Thomas, and I shall so report to Corps Headquarters."

Do not fail to keep the roost poles well oiled with coal oil, it will aid in exterminating the lice.

More than 40,000,000 pounds of chewing tobacco were manufactured in Louisville last year, and over 3,000 men, women and boys are employed in the process.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. ## Priceless Pain

"If a price can be placed on pain, 'Mother's Friend' is worth its weight in gold as an alleviator. My wife suffered more in ten minutes with either of her other two children than she did at 'Mother's Friend.' This successful remedy is not four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a mother," says a customer.

Thus writes Henderson Dale, Druggist, of Carmi, Ill., to the Bradford Regulator Company, of Atlanta, Ga., the proprietors and manufacturers of "Mother's Friend." This successful remedy is not one of the many internal medicines advertised to do unreasonable things, but a scientifically prepared liniment especially effective in adding strength and elasticity to those parts of woman's organism which bear the severest strains of childbirth. The liniment may be used at any and all times during pregnancy up to the very hour of confinement. The earlier it is begun, and the longer used, the more perfect will be the result, but it has been used during the last month only with great benefit and success.

It not only shortens labor and lessens the pain attending it, but greatly diminishes the danger to life of both mother and child, and leaves the mother in a condition more favorable to speedy recovery. "Mother's Friend" is sold by druggists at \$1.00, or sent by express on receipt of price.

Valuable book for women, "Before Baby is Born," sent free on application. THE BRADFORD REGULATOR CO., Atlanta, Ga.

### SCARED UP.

That's what they are but it's too late now to come down in prices. The people are no fools by any means and daily ask the question

#### WHAT MADE THEM CHARGE SUCH HIGH PRICES BEFORE THE BLUE GRASS GROCERY CAME?

That's a hard nut to crack for 'em. They may say goods cost less! Nit!— On the contrary War Taxes have really increased cost of goods all around.

Traded with those that benefit you by giving you lowest prices without being pushed to do so by enterprising competition.

For this week we offer our Choice or Imperial flour at 55c per 24lb. sack. Its a dandy and you will like it. Coal Oil at 9c gallon and other goods accordingly.

Every member of the Standard Paper Co., Cincinnati, from "Allegro" D. Garmon to President Riley, turned out last week to entertain the editors visiting their city. No. 1, prices right, and what they tell you is just that way. Success to the Standard.

### Letter from Will Dunlap.

Mrs. B. F. Walter has received a letter from her son, Will Dunlap, who is in the 6th Cavalry at Santiago. The letter is dated "At sea, near Santiago, June 21." He was on the steamship Rio Grande. He says they were a week in making the voyage and laid on the transports a week before leaving Tampa. The fleet was composed of thirty-two transports and fifteen war vessels. "We came up in front of Santiago yesterday and stopped about ten miles out from entrance to the harbor where Sampson and Schley's fleets have the Spanish fleet bottled up. The entrance to the harbor is very narrow, where the "Jefferson" blocks the entrance. Just outside is sixteen battleships, cruisers, torge lo boats, etc. The ones that came with us make 32 war vessels here in all. On the brow of the mountains to the right of the entrance frowns Morro Castle, which I saw the ships bombard yesterday. We laid where we were, all yesterday, while dispatch boats flew around through the fleet to Sampson's flag ship. Friday they demanded a surrender of the Spanish fleet which was refused. Orders then came to us to get further out to sea, which we immediately did. Then the fun began. I had a plain view of the whole affair from the mast head. Two vessels on the right opened up with broadsides, then the whole line of ships opened fire on the fortifications, which were blown to atoms in half an hour's time. We do not know what day we will make a landing."

Tom Aldridge is also with the troops, but it is not known what troop he is in. Dunlap is troop "C," 6th Cavalry.

### The Press Association.

The Kentucky Press Association met at Cincinnati Friday morning. About one hundred and twenty-five papers were represented. The object of this association is to exchange ideas, discuss the many ups and downs of Kentucky newspaper work and, at the conclusion of the business part of the program, take a few days' well-earned rest. The farmer has his rainy days in which to rest, the banker works from 9 A. M. to 3:30 P. M., the merchant has his clerks to hand out goods and receive the money, the lawyer has his office hours, but a country publisher's troubles never cease for even a breathing spell. Some people say it's easy to run a paper, but they simply don't know what they are talking about. The meeting at Cincinnati was held at the Palace Hotel. This excellent hostelry is situated on Sixth and Vine streets, one block from Fountain Square. It is managed by Mr. Walter H. Maxwell. The rates are \$2 and \$3 per day and the fare is as good as the most fastidious could desire. Robt. E. Lee, head clerk, sees to it that the wants of guests are well looked after. Manager Maxwell treated the press boys in royal style, and each resolved to make the Palace his headquarters in future visits to the Queen City. On Friday afternoon the Citizens' Committee of the G. A. R. encampment came to the Palace with five large, elegant palace trolley excursion cars and took the boys and the ladies to all points of interest. The Zoological Gardens were visited and several hours spent in looking at the many interesting sights. Here an elegant lunch was spread, the G. A. R. committee extended their welcome to the pencil pushers and Hon. J. Stoddard Johnston replied on behalf of the association. After several more hours spent in riding over the hill tops and city, the gang returned to the Palace for supper and at night visited the Lagoon, on the invitation of Senator Gobie. At 4 o'clock Saturday morning the editors left over the C. H. & D. railroad for Detroit, where they took a steamer for Mackinac Island. They will return to Cincinnati Saturday night. The trip over as elegant a road as the C. H. & D. was one which made us yearn to go, but matters at home, (principally delinquent subscribers) prevented. The Association is an organization which is more for business than pleasure. They discuss many matters of importance both to themselves and the reading public. Nothing is ever said of "delinquent subscribers," as it is understood that anything short of fire and brimstone will not move them. Nearly every Kentucky newspaper man was present, from the old war horse, Col. Craddock, down to the trade and fraternal journal's men. A better lot of people we never before had the pleasure to meet with. They were out for business and fun, and that they had plenty of both, goes without saying. The Cincinnati people entertained in a royal manner and seemed determined to make the visit pleasant to the crowd of news gatherers, who are always doing favors and seldom, if ever, getting any thanks for it. The election of officers and other business matters were to be attended to at Mackinac.

### Col. Wm. Green, representing the L. & N., was here today and informed

the Record that it was mistaken in saying no stock had been shipped over his line to Cincinnati. Upon investigating we find that since the change in running of trains was made, the L. & N., has handled from this place twenty-five loads of stock. Mr. Green also informs us that the rates from this point are exactly the same as shippers get from Danville. He says furthermore that the L. & N. will meet any rate given and will guarantee as good service and rates as shippers can get at other points. It is not reasonable to think that as great a road as the L. & N., will be underbitten. Their stock service from this branch to Cincinnati is now better than it ever was before. Stock leaves here late in the evening and is carried all the way through during the night while it is cool, landing them in the city in ample time for the sales. The L. & N. can always be counted upon to do the proper thing and shippers will do well to look into all the facts before jumping at conclusions.

George A. Portwood was sentenced to be hung at Lexington on Friday, September 9, for the killing of "Dick" Pankins. An appeal before the court of appeals will be prosecuted.

All the English and four German papers, morning and evening, of Chicago suspended publication Friday owing to the unwillingness to pay stereotyped four dollars a day. They expect to resume by Tuesday.

Steamer New England arrived at Seattle from St. Michaels with twenty miners from Dawson City. They brought \$175,000 in gold dust and drafts, making an aggregate of half a million dollars.

### Line and Salt in Wheat.

If Mr. H. A. B. Marksburg succeeds in making farmers believe that line in wheat should be used in either small or large quantities for any purpose, we are sure that all experienced millers will be glad to see him ship some to some foreign market, for we are sure we have no use for it here. Line is the very meanest of dirt and should never be used in wheat. Millers protest against line in wheat and urge farmers not to use it. We think his salt theory is very good and if for no other purpose it adds materially to the straw as feed. Especially do we believe he is exactly right as to the sack question and if he succeeds in arousing your guilty conscience when you come across sacks of other porties please send them in also.

## Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhalant mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Jose Owen, of Montpelier, Ohio, writes: "I was afflicted with Catarrh, and no one could know the suffering it produced better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely. The dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of

**S. S. S. For The Blood**

will prove it to be the right remedy for Catarrh. It will cure the most obstinate case.

I will graze 40 or 50 cattle cheap. Will have plenty of good water. Tom Adams Bryantville, Ky. 25.

There was very little difference between the price of top cattle a year ago and to-day. This shows that good cattle always bring a good price.

There is still a good demand for first-class roadsters. In order to breed this kind, speed and endurance should be taken into account. Have no fears that you will flood the market with this class.

**FOR ALL WOMEN**

Nine-tenths of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

**Wine of Cardui**

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

**THOS. J. COOPER, Toledo, Ohio, says**

"My sister suffered from irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and she has been a mother through the Change of Life."

## THE SUNDAY SERVICES.

Hearty Congregational Singing is Helpful to Worshippers.—The Day of the Solemn, Long-Faced Church Member is Past—Sermon by Rev. T. De Witt Talmage, D.D.

If the people understood religion to be the practical re-enforcement that Dr. Talmage says it is in this sermon, the number of Christian disciples would be greatly multiplied. Text, Isaiah xx. 3: "And these help from the sanctuary."

If you should ask 50 men what the church is, they would give you 50 different answers. One man would say: "It is a convention of hypocrites." Another: "It is an assembly of people who feel themselves a great deal better than others." Another: "It is a place for gossip, where voluble dispositions devour each other." Another: "It is a place for the cultivation of superstition and cant." Another: "It is an arsenal where theologians go and get pikes and muskets and shot." Another: "It is an art gallery, where men go to admire grand arches and exquisite frescoes and musical variable and the Dantean in gloomy imagery." Another man would say: "It is the best place on earth except my own home." "If I forget thee, O Jerusalem, let my right hand forget her cunning."

Now, whatever the church is, my text tells you what it ought to be. It is a place of help, omnipotent help. "Send these help from the sanctuary." The pew ought to yield restfulness for the body. The color of the apostrophe ought to yield pleasure to the eye.

The entire service ought to yield strength for the mind and struggle of every-day life. The Sabbath ought to be harnessed to all the six days of the week, drawing them in the right direction. The church ought to be a magnet, visibly and mightily affecting all the homes of the worshippers. Every man gets roughly jostled, gets abused, gets cut, gets insulted, gets slighted, gets exasperated. By the time the Sabbath comes he has an accumulation of six days of annoyance, and that is a starving church service which has no strength enough to take that accumulated annoyance and hurl it into perdition. The business man sits down in church headachingly from the week's engagements. Perhaps he wishes he had tarried at home on the lounge with the newspapers and the slippers. That man wants to be cooled off and graciously diverted. The first wave of the religious service ought to dash clear over the hurricane decks and leave him dripping with holy and glad and heavenly emotion. "Send these help from the sanctuary."

In the first place, sanctuary help ought to come from the music. A woman dying in England persisted in singing to the last moment. The attendants tried to persuade her to stop, saying it would exhaust her and make her disease worse. She answered, "I must sing; I am only practicing for the heavenly choir." Music on earth is a rehearsal for music in Heaven. If you and I are going to take part in that great orchestra it is high time that we were stringing and thrumming our harps. They tell us that Thalberg and Gottschalk never would go into a concert until they had first in private rehearsal, although they were such masters of the instrument. And can it be that we expect to take part in the great oratorio of Heaven if we do not rehearse here?

But I am not speaking of the next world. Sabbath song ought to set all the week to music. We want not more harmony, not more artistic expression, but more volume in our church music. The English dissenting churches far surpass our American churches in this respect. An English audience of 1,000 people will give more volume of sacred song than an American audience of 2,000 people. I do not know what reason is. Oh, you ought to have heard them sing in Surrey chapel. I had the opportunity of preaching the anniversary sermon in Rowland Hill's old chapel, and when they lifted their voices in solemn song it was simply overwhelming, and then in the evening of the same day, in Agricultural hall, many thousand voices lifted in doxology. It was like the voice of many waters, and like the voice of many thunderings, and like the voice of Heaven.

Now, I am no worshiper of noise, but I believe that if our American churches would with full heartiness of soul, and full emphasis of voice sing the songs of Zion, this part of sacred worship would have tenfold more power than it has now. Why not take this part of the sacred service and lift it to where it ought to be. All the annoyances of life might be drowned out by that sacred song. Do you tell me that it is not fashionable to sing very loudly? Then, I say, away with the fashion. We dam back the great Mississippi of congregational singing and let a few drops of melody trickle through the dam. I say, take away the dam and let the billows roar on their way to the ocean heart of God. Whether it is fashionable to sing loudly or not, let us sing with all possible emphasis.

We hear a great deal of the art of singing, of music as an entertainment, of music as a recreation. It is high time we heard something of music as a help, a practical help. In order to do this we must have only a few hymns. New tunes and new hymns every Sunday make poor congregational singing. Fifty hymns are enough for fifty years. The Episcopal church plays the same prayer every Sabbath, and year after year, and century after century. For that reason they have hearty responses. Let us take a hint from that fact and let us sing the same songs Sabbath after Sabbath. Only in that way can we come to the full force of this exercise. Twenty thousand years will not wear out the hymns of William Cowper, Charles Wesley and Isaac Watts. Suppose now each person in an audience has brought all the annoyances of the last 365 days. Fill the room to the ceiling with sacred song, and you would drown out all those annoyances of the last 365 days, and you would drown them out forever. Organ and cornet are only to marshal the voices. Let the voice fall into line, and in companies,

and in battalions, by storm take the old way and sin of the world. If you can not sing for yourself, sing for others. By trying to give others good cheer you will bring good cheer to your own heart.

When Londonberry, Ireland, was besieged many years ago, the people inside the city were famishing, and a vessel came up with provisions, but the vessel ran on the river bank and stuck fast. The enemy went down with laughter and derision to board the vessel, when the vessel gave a broadside fire against the enemy, and by the shock was turned back into the stream and all was well. Oh, ye who are high and dry on the rocks of melancholy, give a broadside fire of song against your spiritual enemies, and by holy retaliation you will come out into the calm waters. If we want to make ourselves happy we must make others happy. Mythology tells us of Amphion, who played his lyre until the mountains were moved and the walls of Thebes arose; but religion had a mightier story to tell of how Christian song may build whole temples of eternal joy and lift the round earth into sympathy with the skies.

I tarried many nights in London, and I used to hear the bells, the small bells of the city, strike the hour of night—one, two, three, four, and among them the great St. Paul's cathedral would come in to join the hour, making all the other sounds seem utterly insignificant as with mighty tones it announced the hour of the night, every stroke an overmastering boom. My friends, it is not odd that all the lesser sounds of the world should be drowned out in the mighty tone of congregational song singing against the gates of Heaven. Do you know how they mark the hours in Heaven? They have no clocks, as they have no candles, but a great pen of light-lanterns swing across Heaven from eternity to eternity.

Again I remark that sanctuary help ought to come from the sermon. Of a thousand people, any audience, how many have sympathetic help? Do you guess a hundred? Do you guess five hundred? You have guessed wrong. I will tell you just the proportion.

Out of a thousand people in any audience there are just 1,000 who need sympathetic help. These young people want it just as much as the old. The old people sometimes seem to think that any audience, however large, is made up of old people. They are not. There are no worse heartaches than are felt by some of the young people. Do you know that much of the work is done by the young? Raphael died at 37, Richelieu at 34, Gustavus Adolphus died at 38, James Oglethorpe at 35, Cortez conquered Mexico at 30, Don John von Lepanto at 25, Grotius was attorney general at 24, and I have noticed amid all classes of men that some of the severest battles and the toughest work comes before 30.

Therefore we must have our sermons and our exhortations in prayer, in life, in what do these doctors and lawyers and merchants and mechanics care about the abstractions of religion? What they want is help to tear the whimsicalities of patients, the lawlessness of legs, the unfairness of customers, the unreasonableness of every man, the perfection of handiwork, but no praise for 20 excellencies. What does the brain-racked, hand-blistered man care for Zwingli's "Doctrine of Original Sin," Augustine's "Retraction"? You might as well go to a man who has the pleurisy and put on his side a plaster made out of Dr. Parr's "Treatise on Medical Jurisprudence."

While all of a sermon may not be helpful alike to all, if it be a Christian sermon preached by a Christian man, there will be help for every one somewhere. We go into an apothecary's store, we see others being aided on; we do not complain because we do not immediately get the medicine; we know our turn will come after awhile. And so while all parts of a sermon may not be appropriate to our case, if we wait prayerfully, before the sermon is through, we shall have the divine prescription. I say to young men who are going to preach the gospel, we want in our sermons not more metaphysics, nor more imagination, nor more logic, nor more profundity. What we want in our sermons and Christian exhortations is more sympathy. When Father Taylor preached in the Sailors' Bethel of Boston the jack tars felt that they had help for their duties among the rattles and fustian of the world. When Dr. South preached to kings and princes and princesses, all the mighty men and women who heard him felt preparation for their high station.

People will not go to church merely as a matter of duty. There will be next Sabbath be a hundred people in this city who will get up in the morning and say: "The Bible says I must go to church; it is my duty to go to church, therefore I will go to church." The vast multitude of people who go to church, go to church because they like it, and the multitude of people who stay away from church, stay away because they do not like it. I am not speaking about the way the world ought to be, I am speaking about the way the world is. Taking things as they are, we must make the centripetal force of the church mightier than the centrifugal. We must make our churches magnets to draw the people thereto, so that a man will feel uneasy if he does not go to church, saying: "I wish I had gone this morning. I wonder if I can't dress and get there in time. It is 11 o'clock; now they are singing. It is 11:30; now they are preaching. I wonder when the folks will be home to tell us what was said, what has been going on?" When the impression is confirmed that our churches, by architecture, by music, by sociality, and by sermon, shall be made the most attractive places on earth, then we will want twice as many churches as we have now, twice as large, and then they will not half accommodate the people.

I say to the young men who are entering the ministry, we must put on more force, more energy, and into our religious services more vivacity, if we want the people to come. You look into a church court of any denomination of Christians. First, you will find the men of large, common sense, and earnest look. The education of their minds, the piety of their hearts, the holiness of their lives qualify them for their work. Then you will find in every church court of every denomina-

tion a group of men who utterly amaze you with the fact that such semi-illiberality can get any pulpits to preach it. Those are the men who give forlorn statistics about church decadence. Frogs never croak in running water, always in stagnant. But I say to all Christian workers, to all Sunday school teachers, to all evangelists, to all ministers of the gospel, if we want our Sunday schools, and our prayer meetings, and our churches to gather the people, we must freshen up. The simple fact is, the people are tired of the humdrum of religionists. Religious humdrum is the worst of all humdrum. You say over and over again, "Come to Jesus," until the phrase means absolutely nothing. Why do you not tell them a story which will make them come to Jesus in five minutes? You say that all Sunday school teachers, and all evangelists, and all ministers must bring their illustrations from the Bible. Christ did not when he preached. The most of the Bible was written before Christ's time, but where did he get his illustrations. He drew them from the lilies, from the ravens, from salt, from a camel, from a needle, from yeast in the dough of bread, from a mustard seed, from a fishing net, from debtors and creditors. That is the reason multitudes followed Christ. His illustrations were so easy and so understandable. Therefore, my brother Christian worker, if you and I find two illustrations for a religious subject, an I one is a Bible illustration and the other if outside the Bible, I will take the latter, because I want to be like my Master. Looking across to a hill, Christ saw the city of Jerusalem. Talking to the people about the desecration of Christian example, he said: "The world is looking at you; be careful. A city that is set on a hill can not be hid." While he was speaking of the divine care of God's children a bird flew past. He said: "Behold the ravens." Then looking down into the valley, all covered at that season with flowers, he said: "Consider the lilies."

Oh, my brother Christian workers, what is the use of our going away off in some obscure part of history, or on the other side of the earth, to get an illustration, when the earth and the heavens are full of illustrations, as gently as she comes toward the vision of the vacillating sufferer of Jesus Christ, when as near us as Bloomfield, N. J., two little children were walking on the railroad track and a train was coming; but they were on a bridge of treble work, and the little girl took her brother and let him down through the treble work as gently as she could toward the vision of the vacillating sufferer of Jesus Christ, when as near us as Bloomfield, N.
